Satisfação do
Cliente

Justiça

Qualidade

Comunicação

Como empresa líder em tecnologia, abraçamos a **diversidade** em todas as suas formas. Acreditamos realmente que a **inovação** começa com a **inclusão**. E isso só pode ser alcançado com a cooperação de nossos **parceiros**. Afirmamos nosso **compromisso** em manter um **ambiente respeitoso** e **livre de discriminação** e esperamos isso dos nossos **parceiros de negócios**.

A Oracle espera que seus **parceiros** conduzam os negócios de forma **justa** e **ética**, para cumprir as leis anticorrupção em todo o mundo, para cooperar com os pedidos de informação da Oracle e evitar envolver-se em qualquer atividade que envolva até mesmo a aparência de impropriedade.

É vital que os nossos parceiros sejam aderentes aos valores do **Código de Ética e Conduta Empresarial da Oracle**, que baseia-se e implementa os valores que são essenciais para o nosso sucesso como empresa. Nossos valores são a base de tudo o que fazemos e todos nós devemos viver esses valores todos os dias.

Utilize o QR code para acessar o Código de Ética e Conduta Empresarial da Oracle.

Exadata Academy 3.0 | Register Now

Oracle Exadata Cloud at Customer Academy

Visando capacitar nossos parceiros em OCI Services, criamos a Academia Oracle Exadata Cloud at Customer ou Academia Oracle ExaC@C.

A academia contará com **10 sessões de treinamentos**, a partir de **10 de julho**, que permitirá aos participantes conhecer os principais recursos e funcionalidades do Oracle ExaC@C. Também será uma excelente oportunidade para você esclarecer todas as suas dúvidas para obter a sua certificação!

Participe conosco dessa academia e descubra por que o Oracle ExaC@C é a maneira mais simples de migrar as cargas de trabalho críticas do Oracle Database de uma organização para a nuvem.

Confira a agenda a seguir e inscreva-se. Contamos com a sua participação!

Agenda

Troubleshooting tools – Demo Session 21 de agosto 10h às 11h30h (horário de Brasília)	Inscreva-se
Monitoring – Demo Session 28 de agosto 10h às 11h (horário de Brasília)	Inscreva-se
Smart Scan, HCC compression & In-Memory – Demo Session 11 de setembro 10h às 12h (horário de Brasília)	Inscreva-se
A&Q for Certification 18 de setembro 10h às 12h (horário de Brasília)	Inscreva-se
New Features – Demo Session 25 de setembro 10h às 12h (horário de Brasília)	Inscreva-se
view	Inscreva-se
PCA - Private Cloud Appliance 17 de julho 10h às 12h (horário de Brasília)	Inscreva-se
Patching – Demo Session 24 de julho 10h às 12h (horário de Brasília)	Inscreva-se
Backup & Restore – Demo Session 31 de julho 10h às 11h30h (horário de Brasília)	Inscreva-se

Exadata Operations Inside

ExaC@C Auditing

Demo – Data Safe Report

Demo – TFA Oratop Tool

Demo – Configuring CPTA

Dom0 VS DomU

Exadata Cloud at Customer - Dom0 vs DomU

DOMU - Customer-managed platform and databases

- Virtual machine (VM) operating systems running the Exadata Compute Node software
- Grid Infrastructure on the Compute Node VM
- Database software on the Compute Node VM

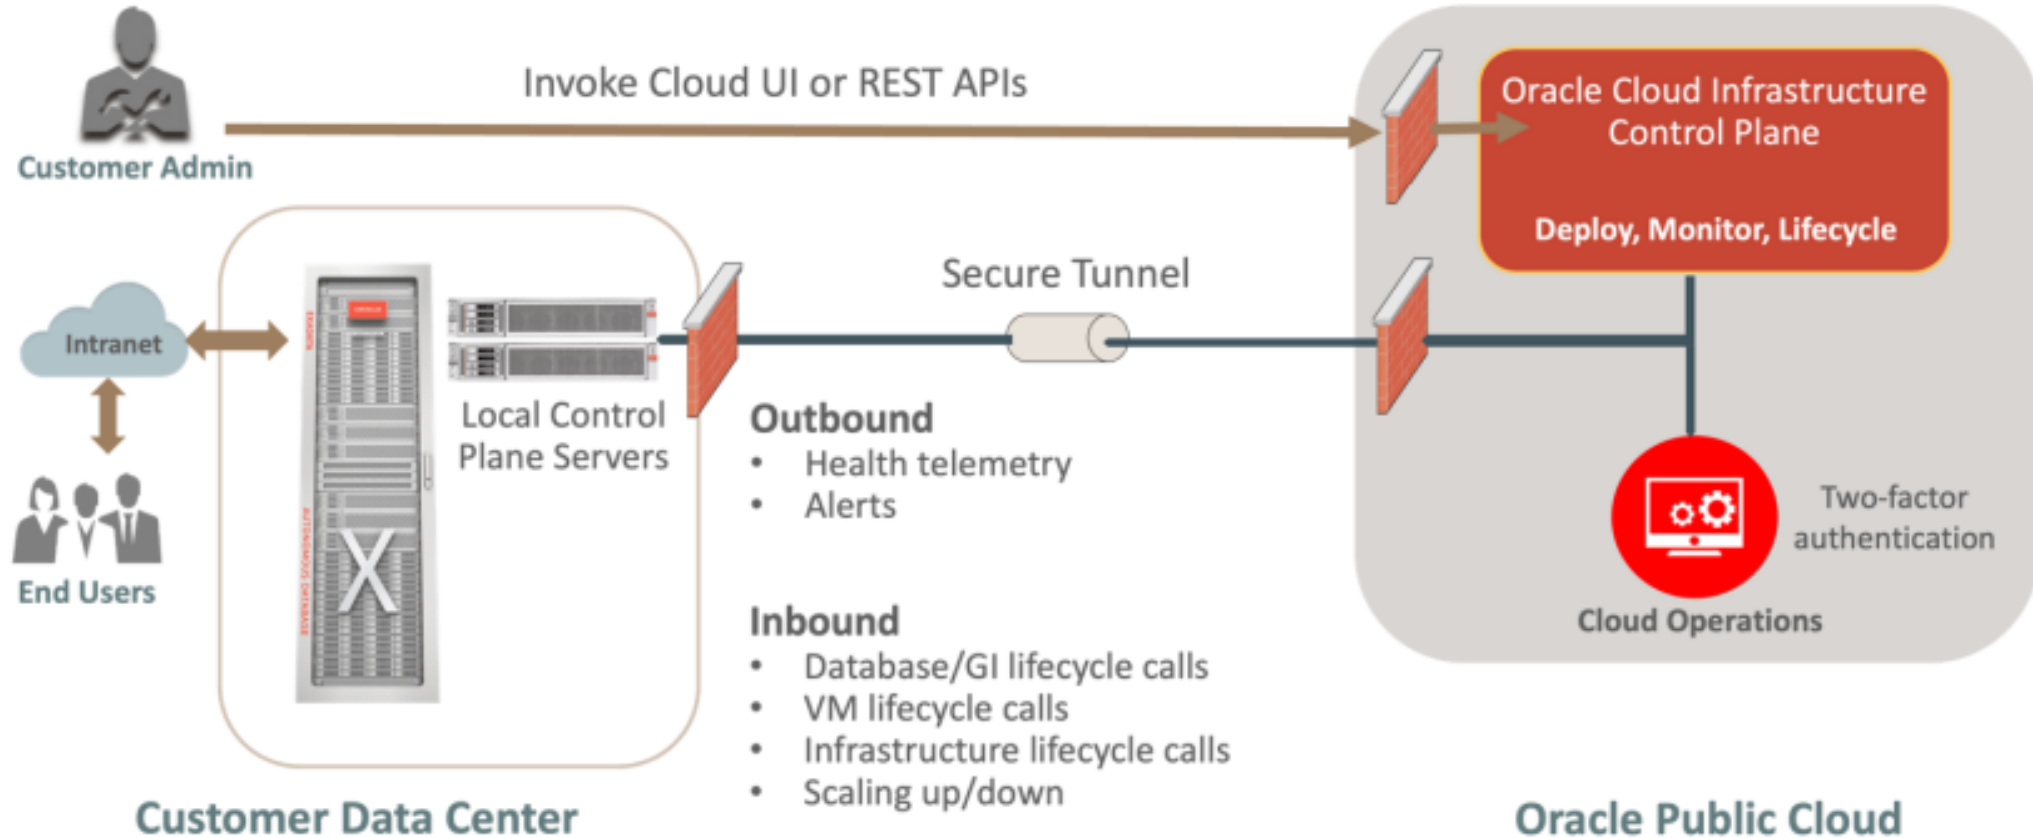

DOM0 - Oracle-managed infrastructure

- Ethernet switches
- InfiniBand switches
- Power supplies
- Exadata Storage Servers
- Exadata Database Nodes
- Hypervisor running on the physical servers

Exadata Console Management and **Control Plane Diagram**

Exadata Cloud@Customer – Management Flow

The background features a dark gray field with a pattern of concentric circles. On the left side, there is a vertical decorative bar with abstract shapes in blue, green, and light blue. The title 'Operator Access Control' is centered in white text.

Operator Access Control

Operator Access Control on OCI Console menu

The screenshot displays the Oracle Cloud console interface. At the top, the header includes the Oracle Cloud logo, a 'Cloud Classic' dropdown, and a search bar. The left sidebar contains a navigation menu with various service categories. The 'Oracle Database' category is highlighted with a red dashed box. The main content area shows the 'Oracle Database' overview page, which is divided into three columns. The first column lists various database services. The second column lists 'Oracle Exadata Database Service on Cloud@Customer', 'Exadata Fleet Update', and 'External Database'. The third column lists 'Data Safe - Database Security' services, including 'Overview', 'Security Assessment', 'User Assessment', 'Data Discovery', 'Data Masking', and 'Activity Auditing'. Below these, 'Database Backups' and 'GoldenGate' are listed. The 'Operator Access Control' link under 'GoldenGate' is highlighted with a red dashed box.

Operator Access Control

Exadata Cloud at Customer | Oracle **Operation Access** Control

OAC enables you to grant, audit, and revoke the access **Oracle has to your Exadata Infrastructure, Exadata Infrastructure hosting an Oracle Autonomous Database on Exadata Cloud@Customer**

By "manage" **Autonomous Database on ExaC@C infrastructure** we mean the typical database admin or DBA tasks such as the following :

- Provisioning Autonomous Database resources;
- Backing up databases;
- Recovering a database;
- Patching and upgrading;
- Scaling Monitoring service health;
- Auditing Alerts

1 Introduction to Monitoring Exadata Cloud Service

Oracle Enterprise Manager Cloud Control provides a complete cloud lifecycle management solution for Oracle Database Exadata Cloud Service and Oracle Database Exadata Cloud at Customer, collectively Exadata Cloud Service.

Note:

To monitor Oracle Exatadata Database Machine using Oracle Enterprise Manager Cloud Control, see [Oracle Exadata Database Machine Getting Started Guide](#).

Overview and Architecture

Oracle Enterprise Manager Cloud Control provides an integrated monitoring solution for the various layers of Exadata Cloud Service. The end users have access to select components of the service such as the databases, hosts, and ASM. The hardware components like physical servers and network interfaces are monitored and managed by Oracle.

Oracle Enterprise Manager agents for Exadata C@C

The EM Agent is deployed and configured for Exadata through the following process:

There are two deployment models EM agents for Exadata Cloud:

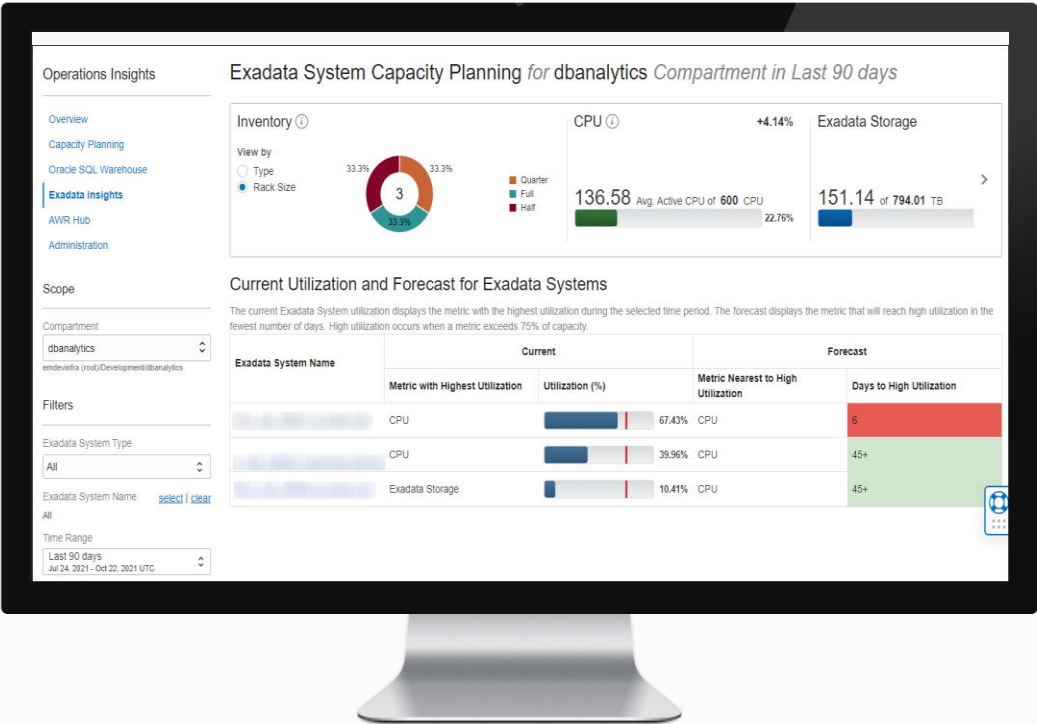

- Identify deployment model
 - Complete deployment pre-installation tasks
 - Create named credentials
 - Deploy agents
 - Discover Cluster
 - Discover ASM, Database, and Listener
 - Discover Exadata Cloud Infrastructure
-
- Standard agents for Exadata Cloud at Customer and Exadata Cloud Service with VPN
 - Hybrid Cloud Agents for Exadata Cloud at Customer without VPN

Exadata Operations Inside

Performance diagnostics, monitoring capabilities for Exadata Cloud

Capacity planning

- Analyze and forecast database resource usage based on long-term historical data
- Optimize cost of operations by identifying over- and under-utilized servers

SQL trend analysis

- Long term performance and trend analysis of Oracle Databases with SQL warehouse
- Proactively identify and mitigate SQL issues
- Find common patterns in SQL behavior across databases and applications

ExaC@C Auditing

Oracle Database **Privilege Analysis** | DBMS_PRIVILEGE_CAPTURE

Basically, **there are six** steps that must to be **completed to enable** this feature :

- dbms_privilege_capture.create_capture("");
 - dbms_privilege_capture.enable_capture("");
 - dbms_privilege_capture.generate_result("");
 - dbms_privilege_capture.disable_capture("");
 - dbms_privilege_capture.enable_capture("");
 - dbms_privilege_capture.drop_capture("");
- Database **privilege analysis** enables you to create a **policy that records** the usage of system and object privileges that have been granted to users. You then can determine **the privileges** that your users **are using and not using**. “

You can get capture results on :

PRIV_TEST_USER
DBA_USED_PRIVS
DBA_USED_PUBPRIVS
DBA_USED_SYSPRIVS...

“If you are configuring this feature for **Oracle 19c database version** and later, this feature is **already included on Enterprise Edition and there is no extra cost** to the customer.

For all other versions, customer must to have audit vault licensing (Ex. 12c,18c..)”

Introducing OCI Oracle Data Safe

Unified database security control center

- Risk dashboard: configuration, data, users
- Monitor user activity
- Mask data for test
- Extensible - more features to come...

Benefits

- No special expertise needed: click-and-secure
- Saves time and mitigates security risks
- Defense-in-depth security for all customers

Available for securing ALL Oracle Databases, on-premises and in the cloud

Using TFA *Oratop*

Exadata Cloud at Customer - Oratop onTFA
